

Terms of Reference for the 2023 Refresh training for WVV's National Rapid Response Team (NRRT)

1. Background and introduction:

World Vision Vietnam is an INGO actively contributing to disaster preparedness and response for many years in Vietnam. In order to timely and effectively response to disasters, WVV has established the National Rapid Response Team (NRRT), whose members are from different departments and sectors. This team is first line force responding in emergency as well as providing technical supports to APs to implement disaster preparedness to strengthen resilience of WVV and communities.

As context of disaster risk changes rapidly with increasing and unpredicted intensity and frequency, it is necessary that NRRT members' capacity, including knowledge and skills on disaster risk reduction and response to climate change can be strengthened frequently.

The training for NRRT this year is scheduled from 13-15 of June, 2023

2. Purposes:

- Strengthen the surge capacity of WV Vietnam's National Rapid Response Team (NRRT) particularly in DM's knowledge and first aid skills.

3. Expected Outcomes of the workshop:

- Improved capacity of NRRT in disaster preparedness and emergency response
- Better response in FY23 typhoon season and effectively contribute for Vietnam Emergency response if disasters happen
- 100% participants will be able to understand, explain the definition, rules and first aid procedure (DR.ABC), able to describe about typical symptom and risk of common injures
- 100% participant can practice first aid skills correctly

4. **Location:** Da Nang city (detail address will be updated later)

5. **Time:** 14-15 of June, 2023
