

Recruit

National Technical Consultant(s): Data collection for establishing carbon inventory and developing emissions mitigation strategy for black pepper suppliers in Vietnam

May 30th, 2023

Duration:	Up to 180 hours (22.5 days) between June 2023 and January, 2024 for one or two national individual consultants
Duty Station:	Home-based in Vietnam, with travel to the field in Dak Lak, Dak Nong, Ba Ria Vung Tau

1. JOB SUMMARY

Winrock International works with people around the world to increase economic opportunity, sustain natural resources, and protect the environment.

Winrock is seeking one or more Technical Consultants to lead the data collection process of establishing carbon inventories for black pepper suppliers and advise on emissions mitigation strategy and implementation in the Dak Lak, Dak Nong, Ba Ria Vung Tau provinces in Viet Nam.

The Technical Consultant(s) will develop and apply expertise and advanced technical knowledge in one or more of the following areas: greenhouse gas (GHG) inventories, carbon management, energy emissions, and/or transportation emissions to support technical feasibility studies and assessments.

2. ESSENTIAL RESPONSIBILITIES

The technical consultant(s) are responsible for the following tasks:

- Serve as a liaison with organizations in the black pepper supply chain in provinces of Vietnam (e.g., farmers, suppliers and processors of black pepper), facilitating communications, providing translations, and representing Winrock International.
- Coordinate and collaborate with black pepper suppliers and farms to understand their business operations, set expectations of the process, and ensure smooth communications between the suppliers and Winrock International throughout the project.
- Collect supplier-specific and activity-based data required to quantify the suppliers' GHG emissions in adherence to the Greenhouse Gas Protocol.
- Advise on emissions mitigation strategies related to electricity, industry, and transport to help the black pepper suppliers reduce their emissions and achieve decarbonization goals.

3. QUALIFICATIONS

- Understanding of organizational GHG accounting standards and methods.
- Experience with GHG calculation methodologies and emission factors.
- Knowledge of black pepper and/or coffee cultivation practices and carbon management related to their production.
- Knowledge of Viet Nam's energy and/or transportation sectors.
- Knowledge of agronomy and fertilizer application.
- Excellent management, communication, and organizational skills are required.
- Excellent stakeholder engagement skills are required.
- Fluency in English and Vietnamese are required.
- Knowledge of decarbonization potential in black pepper production preferred.
- Experience with conducting training in carbon management, emissions mitigation, or target-setting preferred.

Given the diversity of skills needed, Winrock anticipates hiring more than one consultant to conduct different components of this work. For that reason, interested individuals are encouraged to apply even if they do not meet all the qualifications.

4. HOW TO APPLY

Interested candidates with the right qualifications and motivations are invited to send a letter of interest, a full CV in English to the following email address: chelsea.su@winrock.org with the subject line of ***“Your full name – National Technical Consultant for black pepper data collection and emissions mitigation”*** no later than **June 16th, 2023**.

We would like to thank all applicants for their interest but only candidates who meet requisite criteria and are shortlisted will be contacted.

ABOUT WINROCK

Winrock is an equal opportunity employer. We are committed to providing equal employment opportunities for all people and value diversity and inclusiveness.
