

## USAID Climate Resilient Agriculture in the Mekong Delta (CRM)

### SCOPE OF WORK

#### Can Tho Office Assistant

#### 1. INTRODUCTION

CRM is a five-year project working to enhance the resilience of the Mekong Delta's communities, ecosystems, and livelihoods. Working across five provinces of Dong Thap, Kien Giang, Ca Mau, Soc Trang, and Tra Vinh, CRM will further strengthen the effective partnership between USAID and the Government of Vietnam (GVN) to support Vietnam's development goals and contribute to U.S. government strategies and targets.

CRM activities are organized within three interconnected objectives and one cross-cutting theme:

- **Objective 1: Strengthen climate change resilience of the most vulnerable populations.** CRM will engage stakeholders to assess and address vulnerability through enhanced climate information services, resilient livelihood and safety net models, improved provincial plans, and increased access to finance.
- **Objective 2: Strengthen management and restoration of natural ecosystems to provide ecosystem goods and services.** CRM will take an inclusive participatory approach to identify entry points to support evidence-based transformation of legal and governance frameworks, improve management capacity, and incentivize natural resource conservation.
- **Objective 3: Reduce methane emissions through low-emission and sustainable agriculture practices.** CRM will work with GVN and stakeholders across value chains to assess gaps and opportunities and harness payment for environmental services schemes and other results-based finance mechanisms to reduce intensive rice farming and GHG emissions and drive transformation through a market systems approach.
- **Cross-cutting focus: Develop and implement policies to advance climate actions and biodiversity conservation.** CRM will also work with GVN and stakeholders to enhance development, harmonization, and implementation of policies, as well as to strengthen national and sub-national coordination. CRM will engage key stakeholders to influence and incentivize policy, practice, and behavior in favor of transformation.

CRM will be implemented during the period of 2023-2028 by Winrock International with a consortium of Vietnamese and international partners. GVN counterparts are the Ministry of Agriculture and Rural Development and the Management Board of Forest Projects.

#### 2. POSITION DESCRIPTION

The Can Tho Office Assistant will support the Can Tho Office Manager to ensure the Can Tho CRM Office is running smoothly and efficiently. S/he will support administrative and clerical activities; greet and direct office visitors; collect, organize, and retrieve information and documents; and make arrangements for meetings and travel.
