

Count me in!

- Do people with disabilities have equal access to the projects of your organisation?
- How to make sure that disability inclusion is not a one time activity in a project?

In this course you will learn practical steps to assure inclusion of people with disabilities in your projects, in your organisation or institution, and be more familiar about donor requirements with regard to inclusion.

For whom

This course is relevant for all who are working in international development, government body, private sector and are involved in policy development, project planning, monitoring & evaluation or project implementation.

Unique training combination

The training course 'Disability Mainstreaming' is the result of a cooperation between MDF Asia Training & Consultancy and Light for the World, combining excellent training capacities with best content knowledge.

Objectives

It is a 4-days course offering Disability Mainstreaming in both projects and organisations. Afterwards you will be able to:

- Learn how to identify and address barriers that exclude people with disabilities from development initiatives;
- Analyse your own organisation or institution with respect to inclusiveness;
- Mainstream practices

Essential Facts

Course fee: VND8.000.000

Course language: Vietnamese

Discount: 10% discount for returning participants & 1 free seat for organisations sending 6 participants.
