INVITATION LETTER
Training on Gender in Humanitarian Action

Dear colleague,

On behalf of UN Women, Disaster Management Policy and Technology Center (Viet Nam Disaster Management Authority), UNICEF, and the International Planned Parenthood Federation, we are pleased to invite you to participate in the Gender in Humanitarian Action Training held from the 14-16 May 2019, at the Disaster Management Policy and Technology Center, Meeting room 2nd floor, No.54, Lane 102, Truong Chinh street, Ha Noi.

This training has been designed to answer the recurrent demand for a stand-alone training on gender, enabling humanitarian and disaster risk management practitioners to have an increased understanding of what is gender equality programming and how to apply it in their respective areas of work. The objective of the Gender in Humanitarian Action and DRR training is to provide participants with a variety of practical tools on gender that are transferable to the range of situations in which humanitarian and disaster risk management workers may find themselves in the field.

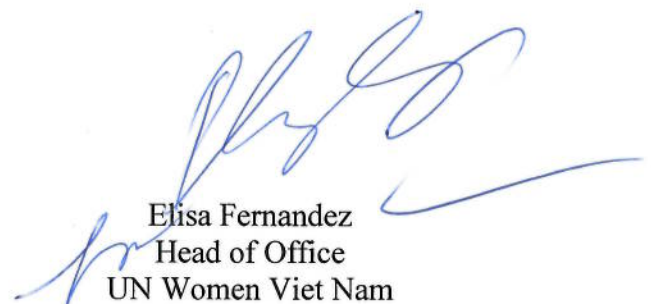

The three-day course is built on a variety of methodologies, stressing active learning through a range of small-group, role-play, presentation, quizzes, team and individual activities, and targets members of the Viet Nam Gender and Protection Working Group and other humanitarian and disaster risk management stakeholders, CSOs, NGOs, INGOs, and UN agencies at the national level.

Please find attached the training concept note and the draft agenda overview for your reference. We would be grateful for your earliest reply, indicating your interest in the training, to Ms. Tran Thi Thuy Anh at thuyanh.tran@unwomen.org before 1 May 2019.

Sincerely,

Bui Quang Huy
Deputy Director

Disaster Management Policy and Technology Center
Viet Nam Disaster Management Authority

Elisa Fernandez
Head of Office
UN Women Viet Nam
