

EMPLOYMENT OPPORTUNITIES IN PUBLIC HEALTH

FHI 360 is an international, non-governmental organization that works with the Vietnam Ministry of Health and other national bodies, as well as provincial and district-level health services, to promote the health and wellbeing of the Vietnamese people, particularly vulnerable and marginalized populations. FHI 360 is currently implementing programs with government and private sector partners that address HIV prevention, care & treatment, clinical research, health system strengthening, maternal and child health and nutrition, diagnostics, and laboratory services.

We are currently seeking a qualified and highly motivated Vietnamese national candidate to serve as **Technical Director, Tuberculosis (TB) for the USAID Sustainable HIV responses From Technical assistance (USAID SHIFT) project**, based in **Hanoi**. Vietnamese nationals living abroad are encouraged to apply.

USAID SHIFT is a five-year contract managed by FHI 360 originally awarded to help local stakeholders achieve and sustain epidemic control. The purpose of USAID SHIFT is to strengthen human, organizational, and systems capacity to lead the national HIV and AIDS and TB response and deliver innovative enhancements in HIV and AIDS and TB services. USAID SHIFT is organized around two main areas to address both HIV and TB:

Provide direct service delivery to achieve targets in priority provinces and transition services in maintenance and priority provinces:

- Task 1.1: Scale-up services along the entire CoPC in PEPFAR/Vietnam priority provinces and USAID TB priority provinces to achieve “90-90-90” HIV case-finding, care, and treatment targets, and to achieve TB and MDR-TB active case-finding, treatment and prevention targets.
- Task 1.2: Maintain direct service delivery (DSD) and then fully transition ownership of remaining sites in maintenance provinces supported through the USAID SMART TA Project.

Provide demand-driven HIV/AIDS and TB technical assistance:

- Task 2.1: Establish a demand-driven mechanism for technical assistance (TA) provision.
 - Subtask 2.1.1: Provide demand-driven TA at the national level and provincial levels to build sustainable HIV/AIDS and TB services and systems.
 - Subtask 2.1.2: Deliver demand-driven TA at the site level in priority and maintenance PEPFAR/Vietnam provinces and in USAID TB priority provinces to ensure quality and maintainable HIV/AIDS and TB services.

Position description:

The Technical Director, TB (TB TD) serves as key personnel on the USAID SHIFT Project and provides senior oversight of core technical elements of the tuberculosis portfolio at FHI 360 Vietnam. Under the leadership of the USAID SHIFT Chief of Party, the TB TD takes an active role in ensuring the quality, relevance, and impact of both community and clinical activities in support of beneficiaries across the tuberculosis service cascade. The TB TD facilitates and champions the local adoption of more effective and efficient practices to achieve service delivery outcomes with respect to intensified case finding, linkages to diagnostics and treatment, and retention in care. The TB TD works in close collaboration with the National TB Program (NTP) and other stakeholders to ensure local ownership and the sustainability of TB services in Vietnam, as well as to advance the routine and more frequent application of data to improve program impact and client satisfaction at every level. The TB TD will serve as a focal point for advancing high-impact innovations in TB programs, coordinating relevant activities, conducting briefings, and liaising with district, provincial and national health authorities. He/she will possess comprehensive knowledge and experience concerning tuberculosis prevention, detection and management. The TB TD will support quality assurance of clinical and non-clinical training with respect to TB services, and will be expected to represent FHI 360 with professionalism in collaboration with the Ministry of Health (MOH), the Vietnam Authority of AIDS Control (VAAC), Provincial Health Services (PHS), provincial Centers for Disease Control (CDC), donors, U.S. government (USG) partners, and other stakeholders. He/she shall have a thorough understanding of relevant government of Vietnam (GVN) policies and regulations, how the GVN operates, and a keen understanding of local development activities. He/she will work closely with other technical staff to expand and advance operational and client relationships pertaining to tuberculosis, HIV, viral hepatitis, and other infectious disease threats as FHI 360 Vietnam explores additional business opportunities in these domains.

Main responsibilities:

- Works with the Chief of Party as key personnel to provide leadership in the development of a comprehensive, needs-based and contract-responsive strategy for USAID SHIFT TB activities.
- Oversees the technical direction and technical operations of TB activities under the USAID SHIFT project, in particular leading intensified TB case-finding and case-management efforts in support of the National TB Program (NTP) in USAID SHIFT priority provinces.
- Ensures FHI 360 meets technical deliverables and targets under the USAID SHIFT contract.
- Ensures technical compliance with organization policies and procedures, and USAID rules and regulations.
- Provides oversight and direction of critical staff and functional units pertaining to:
 - TB case-finding, diagnosis, and management;
 - applications of data to monitoring and program improvement; and,
 - advancing sustained local ownership of a state-of-the art response to TB in Vietnam.
- Coordinates and organizes relevant technical assistance TA assignments, which will include identifying and nominating consultants and negotiating terms of engagement.
- Leads the TB components of annual work plan development, lead ad hoc implementation/action plans and schedules, and oversee and monitor execution to ensure completion of project activities to meet targets on schedule and within budget.
- Coordinates international and local technical support as needed to help ensure successful program execution.
- Prepares technical protocols and papers, as needs and opportunities dictate.
- Oversees the selection, development, and performance evaluations of technical managers and other technical personnel, providing appropriate levels of support to ensure optimal job performance.
- Supports the development of sub-awards, subcontracts, consulting agreements, and other contractual or procurement mechanisms that comply fully with FHI 360 and donor policies, procedures, and regulations.
- Oversees TB-relevant project monitoring, evaluation and research activities.
- Leads and coordinates the production of the TB content of quarterly programmatic reports for USAID SHIFT, and produce other reports as required.
- Provides supportive supervision to program management staff and engage with staff to foster an environment that encourages solid technical performance, innovative thinking, and rapid translation of ideas into action.
- Represents USAID SHIFT in meetings with partners, such as USAID, CDC, MOH, WHO, and UN agencies, provincial health services, other INGOs, and local NGOs.
- Performs other relevant duties as requested.

Experience and abilities for the position:

- Advanced degree in public health, medicine, or related fields
- A minimum of five years of demonstrated experience working in TB programs - three of those years should entail experience in the provision of TA, training management, information systems/data management for TB, or other closely associated tasks.
- Thorough understanding of relevant Vietnamese government policies and regulations concerning TB, and of how the Vietnamese government operates.
- Experience with USAID and/or PEPFAR programs and requirements.
- Ability to work well with teams, implementing agencies, government counterparts, USAID, and the media.
- Well-developed written and oral communication skills in both Vietnamese and English
- Ability to travel as necessary.

FHI 360 offers a competitive compensation and excellent benefits.
