

EMPLOYMENT OPPORTUNITIES IN PUBLIC HEALTH

FHI 360 is an international non-governmental organization that, in Vietnam, promotes the health and well-being of the Vietnamese people, particularly vulnerable and marginalized populations. It works with the Vietnam Ministry of Health and other national bodies, as well as provincial and district-level health services to achieve project aims. FHI 360 is currently implementing programs to address HIV prevention, testing, and treatment, TB case finding and treatment, clinical research, anti-microbial resistance, health system strengthening, maternal and child health and nutrition, diagnostics and laboratory services.

We are currently seeking a qualified and highly motivated Vietnamese national candidate to serve as **(Senior) Technical Officer, Tuberculosis (TB) for the USAID Sustainable HIV and TB Responses From Technical Assistance (USAID SHIFT) project**, based in **Hanoi and/or Ho Chi Minh City**. Vietnamese nationals living abroad are encouraged to apply.

USAID SHIFT is a five-year contract managed by FHI 360 originally awarded to help local stakeholders achieve and sustain epidemic control. The purpose of USAID SHIFT is to strengthen human, organizational, and systems capacity to lead the national HIV and TB response and deliver innovative enhancements in HIV and TB services. USAID SHIFT is organized around two main areas to address both HIV and TB:

Provide direct service delivery to achieve targets in priority provinces and transition services in maintenance and priority provinces:

- Task 1.1: Scale-up services along the entire continuum of prevention to care CoPC in PEPFAR/Vietnam priority provinces and USAID TB priority provinces to achieve “90-90-90” HIV case-finding, care, and treatment targets, and to achieve TB and multi-drug resistant TB (MDR-TB) active case-finding, treatment and prevention targets.
- Task 1.2: Maintain direct service delivery (DSD) and then fully transition ownership of remaining sites in maintenance provinces supported through the USAID SMART TA project.

Provide demand-driven HIV/AIDS and TB technical assistance:

- Task 2.1: Establish a demand-driven mechanism for technical assistance (TA) provision.
 - Subtask 2.1.1: Provide demand-driven TA at the national level and provincial levels to build sustainable HIV/AIDS and TB services and systems.
 - Subtask 2.1.2: Deliver demand-driven TA at the site level in priority and maintenance PEPFAR/Vietnam provinces and in USAID TB priority provinces to ensure quality and maintainable HIV/AIDS and TB services.

Position description:

The (Senior) Technical Officer, TB will serve as technical staff supporting the FHI 360 Vietnam country program in TB/MDR-TB active case findings, diagnosis, and treatment management/treatment adherence activities in support of beneficiaries across the TB service cascade. Under the leadership of the the Associate Director TB, the (senior) technical officer will help monitor the local adoption of more effective and efficient practices. to. The officer will help ensure priority provinces meet their TB case findings and TB treatment completion targets.

Main responsibilities:

- Provides technical support to monitor intensified TB case finding, linkages to diagnostics and treatment, and retention in care in selected geographies.
- Provides technical assistance to ensure the quality of services in these settings.
- Facilitates the coordination and timely delivery of demand-driven and needs-based technical assistance for TB case findings/treatment enrollment and retention in selected geographies.
- Supports the timely and accurate use of data use to improve to ensure project meet its case finding targets in selected priority provinces.
- Transfers skills and technical knowledge to build the capacities of local staff, and other counterparts to archive high quality TB programs and continuously improve TB services.
- Prepares technical protocols and papers, as needs and opportunities dictate.

- Supports the development of sub-awards, subcontracts, consulting agreements, and other contractual or procurement mechanisms that comply fully with FHI 360 and donor policies, procedures and regulations.
- Performs other relevant duties as requested.

Experience and abilities for the position:

- University degree in the medical or public health fields or equivalent years of experience; and experience with coordinating resources for large-scale international health projects
- Considerable experience in providing TB services or technical assistance in Vietnam
- Experience with U.S. government contractual requirements and experience working in an international NGO environment desirable
- Well-developed written and oral communication skills in both Vietnamese and English
- Ability to travel as necessary

FHI 360 offers competitive compensation and excellent benefits.
