TERMS OF REFERENCE (TOR)

National Independent Evaluation Consultant (IEC) for final evaluation of the project Vietnam / UNDP / UNEP Partnership Initiative for the Integration of Sound Management of Chemicals into Development Planning and Processes

1. BACKGROUND

Chemicals play a key role in many major sectors of the world economy including agriculture, industry, housing, transport, trade, the health sector and in the home. Despite the benefits they can provide, chemicals can be corrosive, explosive, flammable, irritant, oxidizing, and dangerous to human health and the environment. Exposure to chemicals, and/or their by-products has been associated with a range of detrimental human health and environmental effects.

In Vietnam coupled with accelerated industrialization, inadequate pollution preventive measures, and low awareness within the industrial and other sectors about chemical risk and safety procedures, the country has experienced increased levels of pollution, industrial related accidents and spills. Main barriers that have limited Viet Nam in its ability to deal with chemicals related problems are associated to (i) insufficient capability and resources to manage chemical sector in effective and environmental sound manner; (ii) Lack of enabling environment to facilitate the sound management of chemicals (SMC); (iii) lack of effective co-ordination, unclear division of responsibility and overlapping mandates of various institutions involving in chemical management.

In 2012 the project entitled “Vietnam / UNDP / UNEP Partnership Initiative for the Integration of Sound Management of Chemicals into Development Planning and Processes” funded by Quick Start Fund (QSF) and UNDP has been approved by Government of Vietnam to promote the SMC following Strategic Approach to International Chemical Management (SAICM). The project is implemented by Vietnam Chemicals Agency (Vinachemia) under Ministry of Industry and Trade (MOIT) over the period of two years, 2012 – 2013. Objective of the project is to strengthen institutional capacity to integrate the SMC into national development planning and decision making processes and to begin implementation of generic next steps for strengthening the domestic SMC regime that is consistent with SAICM.

The project aims at delivering the following main outputs(1) a National Chemical Profile; (2) an inter-agency coordination; (3) Economic valuation of a priority in Sound Management of Chemical (SMC) conducted; and (4) a national action plan on sound management of SMC prepared and commented by stakeholders.

An evaluation based on SAICM requirements was conducted in autumn 2013 as part of a project extension to until July 2014. Final evaluation will assess the achievement, relevance, effectiveness, and efficiency of the project during the period from September 2011 to May 2014.

2. OBJECTIVES AND OUTPUTS

In accordance with UNDP M&E policies and procedures, all projects are required to undergo a final evaluation upon completion of implementation. An independent Final Evaluation (FE) shall take place prior to the terminal tripartite review meeting. The final evaluation will look at **relevance, effectiveness, efficiency, sustainability, and impact**, including the contribution to capacity development and the achievement of global environmental goals. The Final Evaluation should provide recommendations for follow-up activities; assess the achievement of project results, and to draw lessons that can both improve the sustainability of benefits from this project, and aid in the overall enhancement of UNDP programming.

The evaluation is to be undertaken in accordance with the “SAICM Guidelines for Independent Monitoring and Evaluation” as well as the general requirements set out in the UNDP handbook on planning, monitoring and evaluating for development results. Guidance and requirements are provided in the links below:

3. SCOPE OF WORK

The anticipated scope of work for the assignment includes, but is not necessarily limited to, assessing the following:

- An in-depth review of the implementation of various project components with a view to identifying the level of achievement of the planned project outputs, the contribution to institutional development and sustainable human capacities;
- Assessment of the level of participation of stakeholders in the achievement of the desired outcome, as well as the effectiveness of such participation;
- Assessment of the primary impact of the capacity development initiatives conducted through Project Vinachemia and other relevant stakeholders. Possible gaps/weakness in the current project design and possible interventions and measures that could be continued to support Vinachemia and other relevant stakeholders in the future;
- Extract lessons learned and best practices that can be considered in the planning and design of future support activities for the representative bodies in Vietnam.

Apart from that, project's results should be rated in the following aspects: **Relevance:** Evaluate the logics and unity of the process in planning and designing the activities for supporting the Vinachemia and other relevant stakeholders. **Efficiency:** Evaluate the efficiency of the project implementation, the quality of the results achieved and the time/political constraints. **Effectiveness:** Conduct an assessment management decisions vis-à-vis the cost effectiveness; and to which extent the project outputs have been effectively achieved. **Impact:** Evaluate the overall impact of the project and its contribution to the development of the legislative institutions. **Sustainability:** Assess the sustainability of results with specific focus on national capacity and ownership over the process.

Together with the International Team Leader, the contractor will propose evaluation methodology based on the following activities:

- Propose a detailed work plan, methodology, approach and interview questionnaires
- Collect relevant documents with support from PMU and the VinaChemia
- Conduct a desk review of collected documents
- Conduct in depth interviews with key counterparts at central level and local level to understand the reasons for identified gaps in relevance and efficiency as well as to document initial impact and lessons learnt of the project
