

## Choose a successful professional training!

### What is dual training?

Dual training combines vocational training at a vocational school and apprenticeship in a company in one course. It makes the training practical and guarantees jobs for participants after the training.

### What would I learn in the dual training in basic hairdressing and skin care?

Help customers having a healthy and beautiful hair, meet professionally the customer's needs and help them having a comfortable and enjoyable experience.

### What can I do after the training?

#### ✓ Join an advanced training course

This is a basic training to provide you with a foundation to start your career in hairdressing. You can follow advanced training or specializing courses.

#### ✓ Work in a hair salon

This is a dual training meaning that you have school sessions and apprenticeship sessions at hair salon. After the training, if you meet the salon requirements, you may be contracted to work at the salon. You will also be able to apply to job in other hair salons.
