THE WORLD WE WANT

Actions towards a Sustainable, Fairer and Healthier Society

Since 2007, the Prince Mahidol Award Conference (PMAC) has been organized as an annual international conference focusing on policy-related public health issues of global significance. The conference is hosted by the Prince Mahidol Award Foundation, the Thai Ministry of Public Health, Mahidol University, the World Health Organization, The World Bank, and other prestigious global partners.

The COVID-19 pandemic is an ongoing global health concern. At present, every country around the world is vigorously fighting the pandemic that has profoundly impacted economies, societies, governments and people's livelihoods. However, overcoming this global crisis requires global collaboration and support from all actors in every sector.

This critical time presents an opportunity for all of us to learn, explore and pave new ways in creating a more sustainable, health-centric world where all people live better in societies with social, environmental and economic resilience that is prepared to meet future challenges posed by emerging threats.

Again this year, PMAC gladly invites everyone to take part in the PMAC 2022 World Art Contest on the concept of the conference theme. Share your imagination and your creativity under the topic "The World We Want: Actions Towards a Sustainable, Fairer and Healthier Society" through Drawings & Paintings and Short Video Clips. We believe that the work of art will present creativity, aspiration, and engagement across societies in designing the future public policy of our society together.

The creation of art work should reflect one of the three main issues below:

- 1: The World We Want: Megatrends and Futuristic Point of Views
- 2: Climate Crisis: Building Back Cleaner/Greener
- 3: Learning from the COVID-19 Pandemic to Better Prepare for Tomorrow's Challenges

Drawings & Paintings

Age Classes

Youth

- Under 9 years old
- 9 - 13 years old
