

EMPLOYMENT OPPORTUNITIES IN PUBLIC HEALTH

FHI 360 is an international non-governmental organization that, in Vietnam, promotes the health and well-being of the Vietnamese people, particularly vulnerable and marginalized populations. It works with the Vietnam Ministry of Health and other national bodies, as well as provincial and district-level health services to achieve project aims. FHI 360 is currently implementing programs to address HIV prevention, testing, and treatment, TB case finding and treatment, clinical research, anti-microbial resistance, health system strengthening, maternal and child health and nutrition, diagnostics and laboratory services.

We are currently seeking a qualified, experienced, and highly motivated candidate for the position of **Strategic Information (SI) Senior/Technical Officer for the USAID Support to End Tuberculosis project**, based in **Hanoi or Hochiminh City**.

Position description:

The SI Senior/Technical Officer will serve as key staff providing M&E and research support for TB program. S/He will perform routine M&E activities, data visualization and use, research, data quality assurance as well as provide technical assistance on M&E to implementing partners where appropriate.

Key duties and responsibilities:

- Support to develop and review of the M&E plans for TB program.
- Support to develop M&E tools, develop and maintain dashboards, prepare quarterly, semi-annual and annual progress reports to the donor as required
- Conduct data collection, data cleaning, monitoring and analysis for TB active case finding, TB treatment and Latent TB infection diagnosis and treatment.
- Provide training and support on M&E for team members and partners
- Collaborate and provide technical assistance to strategic partners (NTP, Provincial Lung hospitals and District TB Units) regarding to M&E on TB program
- Ensure Data quality assurance activities of the project
- Support research activities and pilot implementation
- Other duties as required

Experience and abilities for the position:

- University degree in medicine, public health or related fields with at least three years of relevant working experience for funded development projects. Master's degree preferred.
- Experience in epidemiologic and social science research, including questionnaire development, data collection, data analysis and presentation
- Computer proficiency in word processing, databases and spreadsheets with advance skills in at least three of the following programs: SPSS, Excel, Epi Info, Stata, SQL, and Power BI
- Knowledge and experience in M&E on health project, preferred on TB
- Ability to work well with all project staff, implementing agencies, GNV counterparts, donor agencies and the communities
- Well-developed written and oral communication skills in both Vietnamese and English
- Ability to travel as necessary.

FHI 360 offers competitive compensation and excellent benefits.

Interested candidates are invited to visit FHI 360's career page at <https://www.fhi360.org/careers> and apply the position ONLINE by **February 23, 2023**. Selection and interview will be performed constantly and interested candidates are encouraged to apply as soon as possible.

Only shortlisted candidates will be contacted for interviews.
