

To: Development Partners and International NGOs

Ref: Supporting Victims of Typhoon Damrey

Date: November 07th, 2017

Dear colleagues,

Warmest greetings from the Viet Nam Union of Friendship Organizations (VUFO) and the People's Aid Coordinating Committee (PACCOM).

Typhoon Damrey has made landfall on Vietnam's south-central coast recently. The powerful storm killed at least 69 people, left 30 missing and caused a lot of damage to crops, houses and public buildings.

To get updates on the situation of affected residents, VUFO-NGO Resource Center's Disaster Management Working Group (DMWG) and PACCOM will send assessment teams to affected areas. The teams' findings will be shared at the soonest possible.

In the mean time, VUFO/PACCOM would like to call for emergency relief from development partners and international NGOs to help the affected communities. For coordination purpose, please inform us of any interventions planned by your organizations and what VUFO/PACCOM can assist.

Your prompt action would be highly appreciated.

Yours sincerely,

Phan Anh Son
Director General
