INVITATION FOR PARTICIPATION

Conference Theme: *An introduction to the model of Peer Education in adolescent sexual and reproductive health programming in educational institutions.*

To: NGO Resource Center and members of relevant Non-Governmental Working Groups.

The Relating Adults and Youth (READY) for Health I & II Projects (July 2007 - June 2013) funded and implemented by ADRA in Vietnam, aims to provide education and Behavioral Change Communication in sexual and reproductive health (SRH) and other teenage issues for adolescents in the remote mountainous region of Cao Bang province. Over the past six years, through awareness raising initiatives applying the Peer Education and Communication approach, READY for Health has successfully empowered thousands of adolescents in Cao Bang province with the skills and knowledge to make healthy lifestyle choices in their most important formative years.

As the project is coming to an end in June 2013, ADRA in Vietnam will organize a conference with organizations that work in the field of SRH, to introduce and share our experience and lessons learned from implementing this model in local educational institutions. Participants will be provided with the a toolkit of materials to use for communication activities about SRH in their educational initiatives.
