# Summary of yesterday

[www.csiro.au](http://www.csiro.au)

# MAJOR CHANGES IN EXTREMES - NORTH EAST

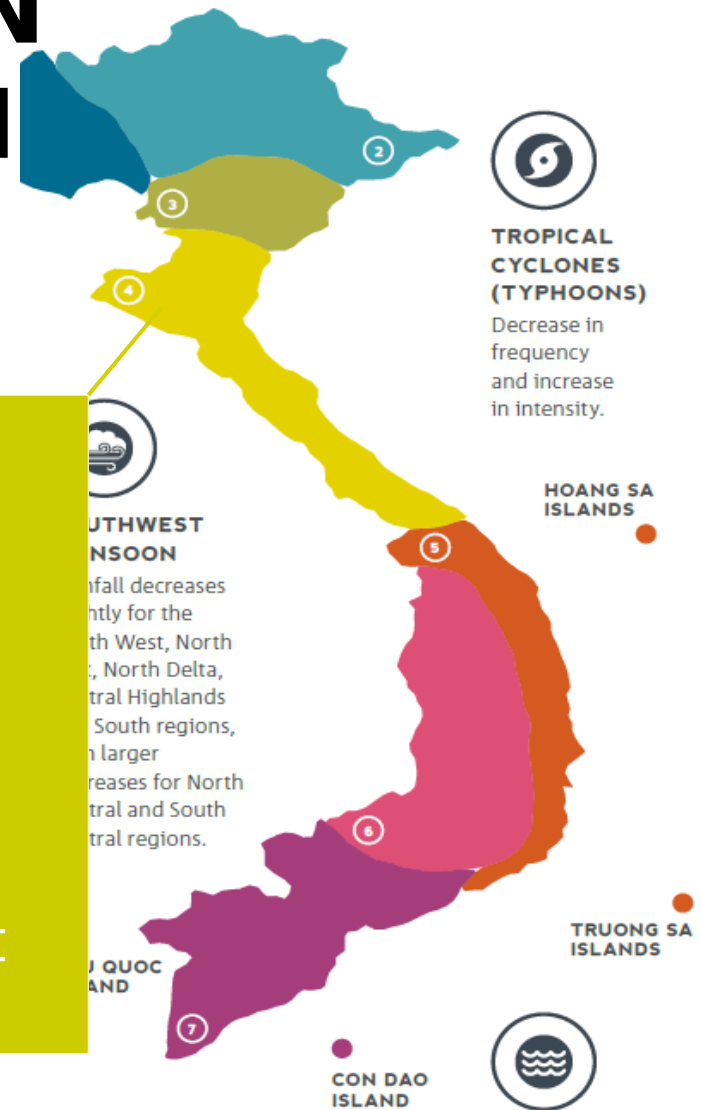

- + Temperature increases
- o Little change in annual rainfall
- ++ Slightly more & longer heatwaves
- +++ More & longer droughts
- + Higher extreme rainfall amounts
- + More hot days
- Some decrease in South West Monsoon

Note: changes projected under higher emission scenario

# MAJOR CHANGES IN EXTREMES - NORTH CENTRAL

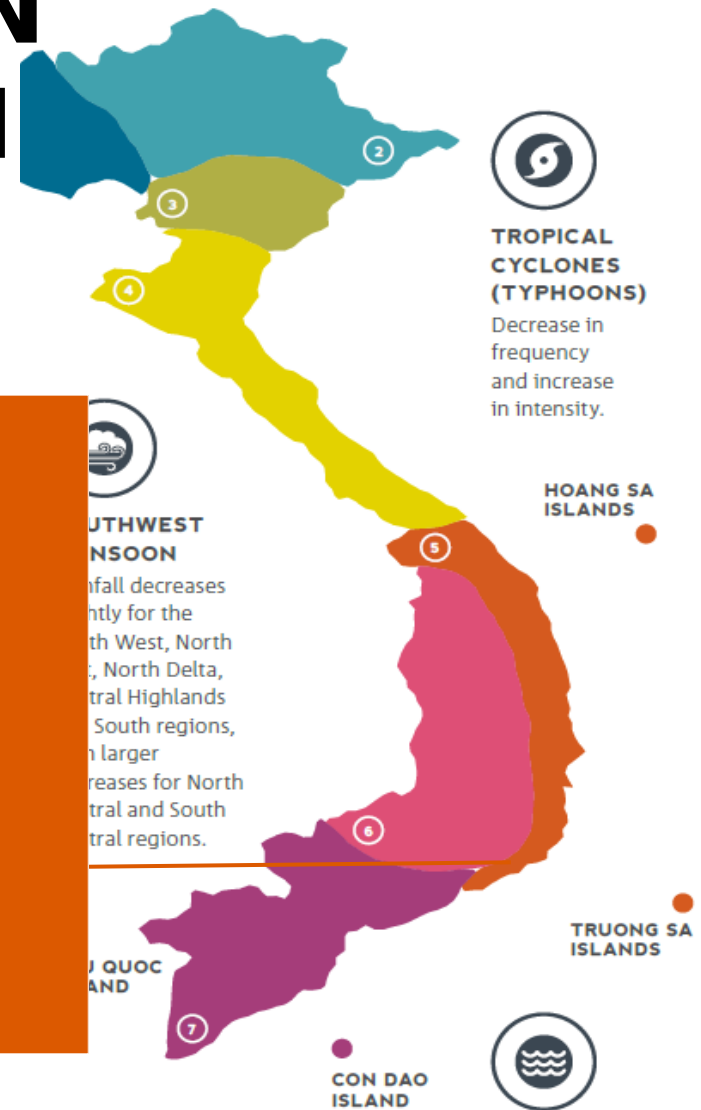

- + Temperature increases
- o Little change in annual rainfall
- ++ More & longer heatwaves
- + More droughts
- Slightly lower extreme rainfall amounts
- + More hot days
- Larger decrease in South West Monsoon

Note: changes projected under higher emission scenario

# MAJOR CHANGES IN EXTREMES - SOUTH CENTRAL

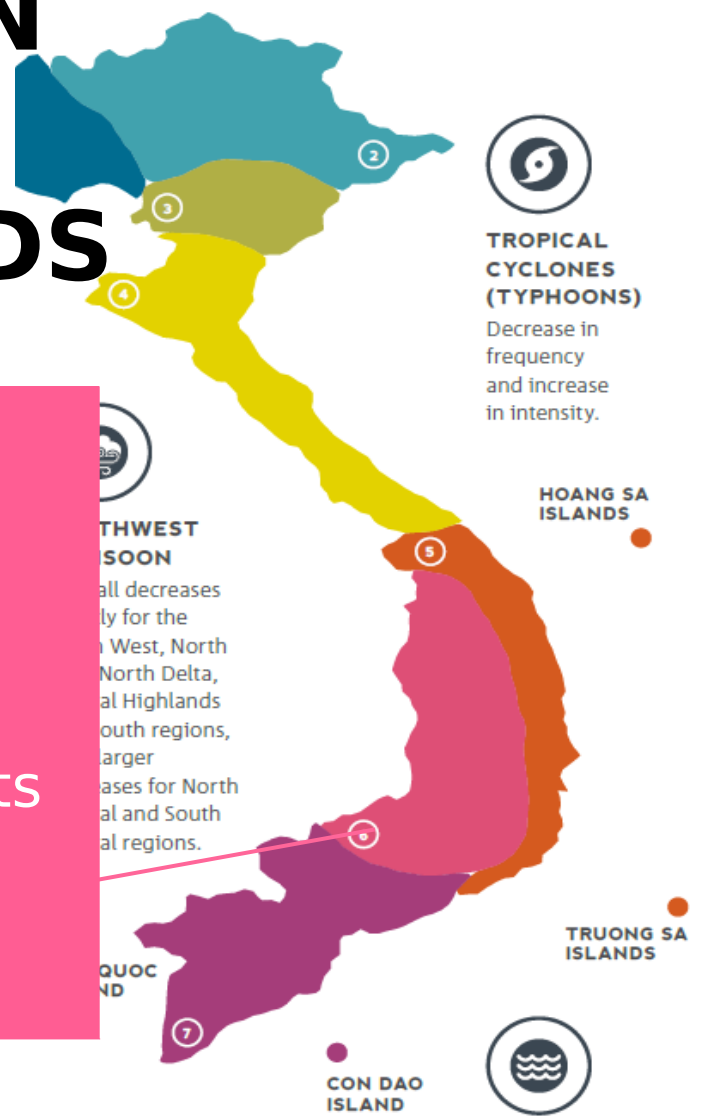

- + Temperature increases
- o Little change in annual rainfall
- ++ More & longer heatwaves
- + Fewer & Longer droughts
- Slightly lower extreme rainfall amounts
- + More hot days
- Large decrease in South West Monsoon

Note: changes projected under higher emission scenario

# MAJOR CHANGES IN EXTREMES - CENTRAL HIGHLANDS

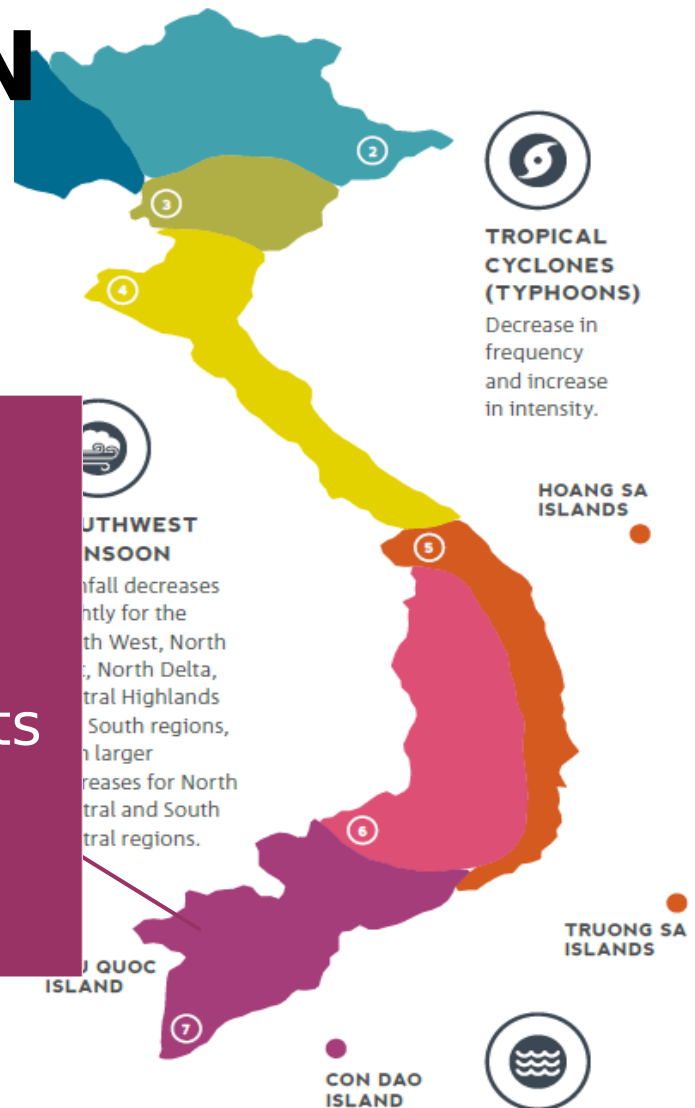

- + Temperature increases
- o Little change in annual rainfall
- ++ More & slightly longer heatwaves
- ++ More & longer droughts
- + Higher extreme rainfall amounts
- + More hot days
- Some decrease in South West Monsoon

Note: changes projected under higher emission scenario

# MAJOR CHANGES IN EXTREMES - SOUTH

- + Temperature increases
- o Little change in annual rainfall
- ++ More & longer heatwaves
- + Longer droughts
- + Higher extreme rainfall amounts
- + More hot days
- Some decrease in South West Monsoon

Note: changes projected under higher emission scenario

# Thank you
