

## WORKSHOP INVITATION

### *Coal ash from coal-fired power plants in Vietnam: Opportunities and Challenges*

To: .....

Green Innovation and Development Center (GreenID) in cooperation with Binh Thuan Department of Science and Technology has conducted a research on “Opportunities and challenges of coal ash from coal-fired power plants: The case study of Vinh Tan Power Complex.” In order to share and consult stakeholders about the research results as well as to provide an open forum to discuss opportunities-challenges and solutions for environmental and social impacts of coal-fired power in Vietnam, especially coal ash issue, GreenID, with the support of Worldwide Fund for Nature (WWF), will organize the workshop “*Coal ash from coal-fired power plants in Vietnam: Opportunities and Challenges.*”

The workshop will be organized at:

**Time: 8.00 am on 12 January, 2016**

**Venue: Cong Binh Hotel, 463 Doi Can Street, Ba Dinh District, Hanoi**

We cordially invite Sir/Madam to attend the workshop.

For timely organization, the workshop organizers would be grateful if you could confirm your attendance by 8 January, 2016 with **Ms. Nguyen Thi Hang, GreenID**

**Email: [hanggreenid@gmail.com](mailto:hanggreenid@gmail.com). Phone: 04 37956372 / 0984 649 567**

The tentative agenda and other related information are attached with this invitation letter. We are looking forward to welcoming you at the workshop.

Sincerely!

**GREEN INNOVATION AND DEVELOPMENT CENTRE**
