

The 5th Global Science Conference on
CLIMATE-SMART AGRICULTURE 2019

SAVE THE DATE

TRANSFORMING
FOOD SYSTEMS
UNDER A CHANGING
CLIMATE

8-10 October 2019 | Bali, Indonesia

globalcsaconference.org

THIS IS **NOT** YOUR USUAL SCIENCE CONFERENCE.

In order to achieve food security, increase productivity, alleviate poverty among rural communities, build resilience to climate change and other stresses, and also reduce agricultural emissions, **a complete transformation in agriculture is needed** over the next decade, going beyond business as usual and piecemeal short-term projects.

For a transformation to succeed, **creativity, disruption and change** are required. This conference aims to mobilize the latest knowledge and catalyze productive partnerships for a food systems transformation.

We invite **stakeholders, entrepreneurs and game changers from all sectors** to join us in taking action!

CONFERENCE STRUCTURE

3 DAYS

Three days of discussions, collaboration and inspiration with your peers in the transformation of food systems.

6 THEMES

From reshaping supply chains and creating policy incentives to empowering farmers and consumers.

INTERACTIVE SESSIONS

This isn't your standard science conference. Come for energizing sessions and the chance to engage with diverse participants.

Participate now and submit your abstract!

Visit www.globalcsaconference.org for details

Abstract submission deadline: **28th Feb 2019**

Co-hosts

RESEARCH PROGRAM ON
Climate Change,
Agriculture and
Food Security

Ministry of Agriculture
Republic of Indonesia

Ministry of Agriculture, Nature and
Food Quality of the Netherlands
