

Job Opening: Development of Methodology and carry out sector research in Garment sector and Energy & Water auditing to Garment companies in Vietnam

The Greater Mekong region is one of the biologically richest places on the planet; its varied natural resources support the livelihoods and well-being of millions of people in mainland Southeast Asia. WWF-Greater Mekong (GM) – on the ground in Cambodia, Laos, Myanmar, Thailand and Vietnam – is working to conserve the region's biodiversity and build a secure and sustainable future for people and wildlife.

WWF-Vietnam is seeking a Consultant for the Development of Methodology, conduct sector research in Garment sector and implement Energy & Water audits to Garment companies in Vietnam. The Consultant will be responsible for the development of methodology, carry out sector research and Energy & Water audits to Garment companies in Vietnam (*Detailed TOR is in attached file*). The master Report will help shape the development of an energy & water efficiency action plan/vision for Garment sector in Vietnam.

Key requirements:

- Master degree in environmental engineering, energy/water management or relevant fields;
- At least 5 years of experience working on energy/water auditing/accounting, sustainable energy and/or environmental resources management;
- Experience working on energy & water audits in Textile & Garment sector is a 'must';
- Experience working with Brands on Textile & Garment industry is an advantage;
- Profound understanding of energy/water issues, especially perspectives about energy/water efficiency in Textile & Garment industry in Vietnam;
- Experience of working with international organization is preferred;
- Team with at least 1 Vietnamese consultant.
- Proven experience with energy & water efficiency in industries.
