

## TERMS OF REFERENCE

<b>Name of project</b>	Consultancy deliver a training on Natural-based Solutions at the community.
<b>Place of work</b>	
<b>Duration (maximum number of working days)</b>	5 working days
<b>Date:</b>	8 <sup>th</sup> October – 24 <sup>th</sup> October

### I. BACKGROUND

The Climate Change Working Group in Vietnam (CCWG – <http://www.ngocentre.org.vn/ccwg>), established in 2008, brings together INGOs, Vietnamese NGOs, development agencies, institutions, professionals and individuals to exchange ideas and to discuss 'lessons learned' on how to improve their capacity related to climate change. The network's mission is to contribute to reducing the vulnerability of disadvantaged people in Vietnam to the impacts of climate change through NGO coordination, advocacy and capacity building to achieve environmentally and economically sustainable as well as socially just responses to climate change. For the period 2019-2023 the overall objective of CCWG is to 'Promote inclusive Climate Action to support Vietnam in achieving the goals of the Paris Agreement.'

Strengthening the capacity of CCWG's members on climate change response is the strategic focus of the network to enable them to deliver effective programs implementation at both national and community levels. While a number of CCWG member organizations are implementing climate change response as core activities, the internal capacity building needs assessment has identified some of the key capacity gaps that prevent them to work effectively. One of the prominent capacity gaps for CCWG members to deliver activities in alignment with national as well as international focuses is the most updated knowledge and practical experience in implementing Natural-based Solutions (NbS) at the community levels.

With this purpose, Friedrich-Ebert-Stiftung Vietnam and CCWG is seeking a team of consultants to develop and deliver a virtual-training for the members of the network to strengthen capacities on climate change response with the focus on implementing NbS at the community level. Specific tasks are outlined below.

### II. SCOPE OF WORK

The specific outputs for this assignment are:

- To provide an overview on the Natural-based Solutions with definition and practices from multiple contexts, with international and local examples;
- To improve capacity of participants in research, design, planning and implement NbS at community levels;
- To share knowledge and practical experience from trainers and peer learning among the participant.

Timelines:

Outputs	Deadline
Consult with CCWG to develop an interactive training curriculum for the 2-3 days virtual training (2 working days)	8 <sup>th</sup> October
To deliver the training sessions including answering the questions from audiences on behalf of CCWG (2 working days)	22 <sup>th</sup> October
Compile the training report with key feedbacks and questions/answers of the participants (1 working days)	24 <sup>th</sup> October

### III. HONORARIUM FEE, CONTRACT MODALITIES AND DURATION OF CONTRACT

The contractor will work on a freelance basis. Therefore, it is his/her responsibility to take care of necessary social insurances (health insurance, pension funds, etc.).

### IV. HOW TO APPLY

#### Application package should include:

Technical proposal:

- Proposed training outlines and methods;
- Curriculum vitae with relevant experience to the topics.

Financial proposal:

- Consultancy cost for trainers, facilitators and technical assistants.
- The financial proposal shall specify a total sum amount in VND.

#### Evaluation:

Technical proposal:

- Training outlines and methods (45 points);
- Professional capacities: the strength of CVs, reference list of experience in similar or related projects (20 points);
- Other added value to the training (5 points).

Financial proposal: 30 points.

Applications submitted as one file with subject line "Consultation for Climate Change Response Training" no later than 06th Oct 2021 to [ccwg.assistant1@gmail.com](mailto:ccwg.assistant1@gmail.com)
