

## **Country Director - Vietnam**

### **Green Invest Asia**

Chemonics International seeks local national Country Directors (CDs) for an anticipated USAID-funded sustainable landscapes activity in Southeast Asia. The project's objective is to catalyze private sector finance to upscale and drive investments in agriculture, forestry, and other land use toward low emission, profitable business models. This position will be based in Hanoi and will report to the Chief of Party (COP) based in Bangkok.

The Country Director (CD) is responsible for:

- The technical oversight in assigned country
- Timely delivery and quality of technical deliverables
- Timely development of coordinated, standardized work plans
- Coordination with the COP and other CDs in the design and implementation of activities
- Developing and implementing knowledge management and learning activities for effective country-to-country learning and knowledge dissemination within the project's overall knowledge management strategy

#### **Qualifications:**

- Advanced degree desirable in Environmental Policy, Natural Resource Management, Economics, Business or related field
- Minimum 10-years professional experience in sustainable landscapes, natural resource management, private sector development, and/or related experience
- Minimum 5-years professional experience in Vietnam, and extensive knowledge of Vietnamese environmental policy, law, economics, investment financing, and/or public private partnerships preferred
- Demonstrated experience in a position of supervisory responsibility on a USAID or international donor-funded project
- Experience building institutional capacity of counterparts at national or local level
- Ability to supervise teams to achieve contractual objectives
- Excellent written and oral communication
- Fluency in English required and proficiency of language of assigned country preferred
