Senior Administrative Officer

Background

ICEM - the International Centre for Environment Management was established in 1999 to help governments and communities build capacity in the sustainable use of natural resources and maintenance of environmental quality. ICEM works in Asia, especially the Mekong countries, and focuses on climate change, water resources, biodiversity conservation and integrated assessments. ICEM seeks to integrate environmental concerns with development through spatial planning, socio-economic analysis and environmental assessment tools. The centre draws from an active network of experts and organizations, nationally and internationally, and in public and private sectors in forging partnerships to address critical conservation and development issues.
