

Juan Pablo Moreiras/FFI

Technical Adviser, FFI Vietnam Country Programme

“In the past century FFI has consistently saved species from extinction and protected habitats from destruction. Their solutions have always been practical, efficient and sustainable in local circumstances.”

Sir David Attenborough,
FFI Vice-president

Fauna & Flora International

Fauna & Flora International (FFI) saves species from extinction and habitats from destruction, whilst improving the livelihoods of local people. Our guiding principles are to work through local partnerships, act as a catalyst for change, make conservation relevant and base decisions on sound science. Founded in 1903, FFI is the world's longest established international conservation body; our conservation work, and impact, spans the globe.

Asia Pacific Programme

Working closely with local partners, the Asia-Pacific Programme currently includes a broad range of species and landscape targeted conservation initiatives in Cambodia, Indonesia, Vietnam, and Myanmar, and has country programme offices in Phnom Penh, Jakarta, Hanoi and Yangon. Around 70 projects are being implemented in the region by a team of approximately 200 staff, consultants, volunteers and partner organisations with an annual regional budget of approximately USD 10 million.

Vietnam Programme

FFI Vietnam is implementing conservation projects at Mu Cang Chai Species & Habitat Conservation Area of Yen Bai, Muong La Nature Reserve of Son La, Khau Ca Species & Habitat Conservation Area and Quan Ba district (Tung Vai forest) of Ha Giang, Trung Khanh Species & Habitat Conservation Area of Cao Bang, Kim Bang forest of Ha Nam, and Pu Mat National Park of Nghe An provinces. FFI also supports conservation actions in Kon Tum, Son Tra and Cat Ba Island.

The Opportunity

FFI is seeking an experienced technical adviser to support the conservation activities undertaken by our Vietnam Country Programme. You will have with a strong biological or ecological background and a proven track record in providing technical input to the design, development, implementation, evaluation and reporting of conservation projects, including the development of funding applications.

The role also requires a skilled and credible communicator, who is confident in developing and managing relationships internally, and externally with partner organisations and relevant stakeholders, including donors and funders. You will be able to demonstrate an understanding of the statutory and regulatory frameworks within which FFI operates, as well as a commitment to organisational, donor and legal compliance. You will have an advanced degree or equivalent level qualification in a relevant discipline and/or substantial experience in a related role. Experience working in the South-East Asia region is desirable.

Job Description

Job Title:	Technical Adviser, FFI Vietnam Country Programme
Reporting to:	Country Director, FFI Vietnam Country Programme (line manager). In addition, the Technical Adviser will provide weekly operational updates to the Country Programme Manager
Line Manager of:	N/A
Key Internal Relationships:	Country Programme Manager, FFI Vietnam Programme Vietnam Finance Manager and Finance Team Projects Managers Technical and Communications staff
Working with:	Project teams; routinely liaise with local government agencies, local communities and community-based organisations, and partner NGOs, representing the values and interests of FFI at all times.

Purpose: Provide technical and operational support to biodiversity conservation projects, across the FFI Vietnam Country Programme (all sites). Tasks include technical input for the 'Primate Programme', primarily, as well as support to the 'Protected Areas Programme', and other areas of the Vietnam Country Programme, as required and in line with FFI's mission, vision and strategic aims. A particular focus of this position will be supporting report writing and funding proposal development.

This position will be working in close collaboration with FFI staff and will provide mentoring and build capacity to support the on-going work of the projects. The successful candidate will have a proven track record in primate (or similar) conservation interventions, experience of project management or coordination, with strong written and verbal communication and interpersonal skills. Experience of fund raising and/or project development, including Theory of Change or logistical frameworks (or similar) is also required.

Specific Duties: Under the line-management of the Country Director, and working with project teams, the Technical Adviser will have the following responsibilities:

Technical Input

- Support project staff to understand and apply problem solving logic, ecological and conservation biology principles and scientific rigour, to their daily work tasks and outputs
- Provide technical / advisory input on species conservation across the FFI Vietnam Country Programme (all sites), and in all cases further our efforts to conserve biodiversity (especially, but not limited to, threatened primates), including exploring conservation priorities, project design, development opportunities, implementation and ongoing monitoring
- Provide high level technical advice, as required, on biodiversity surveys, feeding ecology studies, Population Viability Assessments and other research
- Support protected area law enforcement actions, including technical inputs to the design and implementation of community-based patrols and monitoring tasks
- Provide conservation-orientated technical input to the design and implementation of community-based initiatives
- Input to the design of community development/livelihood activities and community education / outreach plans and communication materials (e.g. review of content/fact checking)

Programme Development & Reporting

- Input to project concepts and funding proposals, in line with approved strategic plans and FFI's project cycle
- Help project teams to develop and nurture relationships with prospective and existing counterparts, other NGOs, funders and donors, and hosting donor visits as required
- Lead on or support the development of high quality donor reports

Operational Support

- Attend staff / technical meetings on a regular basis to advise the Country Director / Country Programme Manager on challenges, solutions and opportunities relating to project design and implementation
- Support and build capacity of project team members to meet project aims, objectives and timelines, and help ensure that projects are implemented in line with work plans and within budget

Partnership Development

- Proactively identify, and where asked, help to develop and nurture relationships and partnerships with third parties, including local government agencies, local communities and community-based organisations, partner NGOs etc.

Programme Representation

- Where asked, represent FFI at key fora, including consultations, negotiations, meetings, workshops and briefings

Communications

- Bring to the attention of the Country Director any news-worthy items arising within the country programme
- Provide editorial review and input to the creation of awareness / PR materials and communication outputs (website text, blogs, social media posts, etc.) to the communication staff (UK and VN)
