

TERM OF REFERENCE FOR CONSULTANCY SERVICE

TOT Knowledge Training on Nutrition and Hygiene in Hoa Binh and Lai Chau

(Project “Scaling up Improved Household Food Security and Nutrition through Enhanced Homestead Food Production in Vietnam”)

INTRODUCTION

HKI-Vietnam is a US non-governmental organization established in Vietnam in 2004. Its mission is to save the sight and lives of the most vulnerable and disadvantaged by combating the causes and consequences of blindness and malnutrition. We do this by establishing programs grounded in evidence-based research in eye health and nutrition.

To address the nutrition and food security challenges in targeted project areas, HKI-Vietnam has been implementing the project “Scaling up Improved Household Food Security and Nutrition through Enhanced Homestead Food Production in Vietnam” in Lai Chau and Hoa Binh provinces from 2017 to 2021. The project is funded by the Irish Aid with the ultimate goal to improve the nutrition of mothers and children under two years of age in Lai Chau and Hoa Binh provinces.

Among the project activities, establishing the network of village facilitators and building capacity for them with knowledge on agriculture, nutrition and hygiene, and skills on facilitation and communications are the key elements of the project. After such trainings, together with further technical support from the project staff, the village facilitators are expected to be capable of organizing and implementing awareness raising and behaviour change activities for their community members toward good agriculture, nutrition and hygiene practices.

This consultancy service is designed to seek qualified consultant, who is capable of providing TOT training on Nutrition and Hygiene for Nutrition facilitators, head of the project villages, members of Health Centre and Women Union at the commune level in Hoa Binh and Lai Chau province. After the trainings, it is expected that these Nutrition village facilitators are able to bring the trained knowledge and skills into practice in form of small-group communications, nutritious meal demonstrations, and home counselling visits within their villages.

SCOPE OF WORK

1. Services:

- The consultant shall be responsible to prepare detailed Training Agenda with specific training schedule and contents, and necessary training materials (such as hand-outs, pre- and post-tests, which are subjects to HKI’s review and approval before the training takes place).
- The consultant shall be responsible for the delivery of 02 field trainings (3 days/training), one in Tam Duong district (Lai Chau province) and one in Lac Son district (Hoa Binh province). Each training consists of around 30 selected participants, who are village nutrition facilitators, village heads, members of Health Centre and Women Union at the commune level.
- The consultant shall be responsible for submitting to HKI a training report 1 week after the training takes place.
- The Consultant is directly accountable to the Project Manager and the Country Director during this consultancy period.
