

VACANCY ANNOUNCEMENT

As a federal enterprise, the **Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH** supports the German Government in achieving its objectives in the field of international cooperation for sustainable development. On behalf of the German Government, GIZ currently provides advisory services to the Government of Viet Nam in three priority areas: Vocational training, Environmental policy and sustainable use of natural resources, and Energy. For further information, please visit www.giz.de/viet-nam.

Viet Nam's dynamic growth is also reaching rural areas, but at the same time poses a major challenge for the protection of the environment and the preservation of biodiversity. The effects of climate change are significant and the physical exposure, high population density and institutional weaknesses make the coastline and the Mekong Delta in particular vulnerable. The cluster "Environment, Climate Change, Biodiversity" currently comprises a total of four teams in the thematic areas of climate change, coast and water (including agriculture), biodiversity and forests, regional economic integration as well as numerous service packages of global projects, and private public partnerships.

The project VN-SIPA provides support to the Government of Viet Nam in establishing the framework conditions to implement the Nationally Determined Contribution (NDC) and the Paris Agreement. Thereby, the project focuses on five areas:

- 1) Advice to Ministry of Natural Resources and Environment (MONRE) on NDC development and implementation in line with national circumstance and the international context.
- 2) Support for the set-up of an institutional framework for implementing the Paris Agreement and integration in sectoral strategies.
- 3) Development of five bankable mitigation actions (NAMAs) as a contribution to achieve Viet Nam's climate targets as stated in its NDC (mitigation component).
- 4) Implementation of ecosystem-based adaptation measures in two provinces with scaling up potential to achieve Viet Nam's climate targets as stated in its NDC (adaptation component).
- 5) Operation of the "IKI interface" for Viet Nam with the aim to connect all projects in Viet Nam funded by BMU's International Climate Initiative (IKI) and to inform them about ongoing climate political processes.

The SIPA project requires a qualified local candidate for the position of:

Junior Project Officer "VN-SIPA"

Duty Station: Hanoi, Vietnam
