

VACANCY ANNOUNCEMENT

As a federal enterprise, the **Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH** supports the German Government in achieving its objectives in the field of international cooperation for sustainable development. On behalf of the German Government, GIZ currently provides advisory services to the Government of Viet Nam in three priority areas: Vocational training, Environmental policy and sustainable use of natural resources, and Energy. For further information, please visit www.giz.de/viet-nam.

The GIZ Energy Support Programme is working with the Ministry of Industry and Trade (MOIT) on the development of the energy sector in Vietnam. The current technological focus is on solar power, wind power, bioenergy, energy access and energy efficiency.

The Renewable Energy and Energy Efficiency (4E) project, financed by the German Federal Ministry for Economic Cooperation and Development (BMZ) and co-financed by the European Union (EU) supports the government and key stakeholders to improve the preconditions for universal energy access, utilization of renewable energy and increase of energy efficiency.

The cooperation in the field of renewable energy for the German-Vietnam component focus on supporting the Electricity and Renewable Energy Agency of the Ministry of Industry and Trade to improve the regulatory framework and develop and use a monitoring mechanism for RE development. The component also aims at supporting key Vietnamese investors and other private sector organizations in order to facilitate their entry in the renewable energy market.

The EU-Vietnam Energy Facility aims at supporting the government and key stakeholders to improve the preconditions for universal energy access, utilization of renewable energy and increase of energy efficiency. The EU-Vietnam Energy Facility includes additionally a demand-driven technical assistance facility in order to support EREA and other stakeholders to improve the regulatory framework of renewable energy and build capacity for renewable energy and energy access.

The Energy Support Programme (ESP) requires a qualified local professional for the following position: The EU-Vietnam Energy Facility aims at supporting the government and key stakeholders to improve the preconditions for universal energy access, utilization of renewable energy and increase of energy efficiency. The EU-Vietnam Energy Facility includes additionally a demand-driven technical assistance facility in order to support EREA and other stakeholders to improve the regulatory framework of renewable energy and build capacity for renewable energy and energy access.
