We work in a variety of fields and support our cooperation partners in designing strategies and meeting their policy goals. GIZ Viet Nam is currently engaged in three priority areas: 1) Vocational training; 2) Environmental policy and sustainable natural resource use; 3) Energy. Fostering gender equality in our project operation and our internal equal opportunity provisions are two strategic pillars of our corporate identity and policy. The effects of climate change are significant and the physical exposure, high population density and institutional weaknesses make the coastline and the Mekong Delta vulnerable. The cluster "Environment, Climate Change, Biodiversity" currently comprises a total of four teams in the thematic areas of climate change, coast and water, biodiversity and forests, regional economic integration as well as numerous service packages of global projects, and private public partnerships.
